Suggested Additions to Emergency Brief (OFR 8481)

REFERENCE: St/I Notice No. 11

It is suggested that the following questions be added to this subject Emergency Brief as possible indicators of preparations for hostilities:

1. Have railroad transport officials been alerted to any expected increase in rail traffic in near future? Has there been any general re-routing of low priority traffic away from main or through lines? Do you know of any provisions for clear line high priority operations?

2. Have loading, unloading and transloading stations been increased in size recently or has any unexplained work on them been noticed?

3. Have you noted any ^{unusual} marshalling of rail cars, especially, flat and tank cars?

4. Have you noticed any large increase in POL, ammo, or military supply traffic?
